Goseva Handwash Liquid 200 G

Weight : 200 G

Price : 75

It is so strange that we invariably believe in the antimicrobial properties of chemical soap that we use daily for washing our hands. The studies and laboratory findings all have repeatedly stated the limitations of modern soaps and its inefficient affect as a cleanser or antibacterial action. On the contrary the hard chemicals like sodium hydroxide removes the upper layer of skin which gives a feeling of being cleaned, however this may cause other skin problems like rashes etc. Keeping above facts in mind to save humanity at large from the harmful, dangerous chemical effects of commercially available hand wash, Goseva has launched all new HAND WASH GEL with neem extract and Gojharan. Neem Leaf ,Bark extracts, neem oil, gomutra are known to suppress several pathogenic microbial species like measles virus and Coxsackie B viruses and anti-fungal infestations.

Herbal Floor Cleaner 500 ml

Weight : 500 ml

Price : 30

Most of the commercial floor cleansers available today, contain toxins and poisons that are hazardous to human health. Warning labels on these products themselves state that the contents are poisonous or dangerous, as they are chemical in origin. Even when stored carefully, toxic floor cleansers can leak out of bottles or be inhaled during use, especially dangerous in households with children. These toxic products seep into the environment, contaminating water supplies. No doubt these cleaning products containing disinfectants can kill germs immediately but may also contribute to their stronger resistance in the long run. Most of the commercial floor cleansers available today, contain toxins and poisons that are hazardous to human health. Warning labels on these products themselves state that the contents are poisonous or dangerous, as they are chemical in origin.
